- 1. Quantitative ability
- 2. Analytical reasoning

- 4. Computer awareness

There may also be a few questions on verbal activity, basic sciences etc. The question paper will have 100 objective type questions. Each Objective type question will have four probable answers. The candidate has to choose the correct answer and shade the appropriate box against the question in the answer sheet with HB pencil.

### c) M.E./M.Tech/M.Arch Programme:

**Part 1** : To evaluate the candidate's ability in Engineering Mathematics

**Part 2** : To evaluate the skill of the candidate in answering questions based on the Basic Engineering & Sciences.

**Part 3** : To evaluate the skill of the candidate in answering questions based on their relevant branches/courses.

### 5.2 Evaluation Scheme

While evaluating the answer, one mark is awarded for each correct answer. **No Negative marks will be made for incorrect answers and unanswered questions.** 

The candidate is expected to attempt all the questions to secure the highest mark. In other words there is no choice among the questions.

The model questions are given in **Annexure II.** The candidate has to choose the correct answer and shade the corresponding box in the answer sheet with **HB pencil** for that question.

Wherever writing is involved use **"black ball point pen"** only.

A specimen answer sheet is given in **Annexure III.** By taking photo copies of this specimen answer sheet, the candidate can practise himself/herself before appearing for the Common Entrance Test.

During evaluation, the answer sheets are fed into a scanner. The shaded information is captured by the scanner and the details are transferred to computer for evaluation. Even a small stray Pen / Pencil mark on the sheet will be captured by the scanner which may mislead the evaluation process. When you want to make changes in the answer, erase the previous shading completely and shade the appropriate box. Shade the box fully so that alphabet printed inside completely disappears. Improper shading and light shading are likely to be missed by the scanner which may result in loss of marks.

If more than one box is shaded for a question, it will be treated as wrong answer.

The candidates are advised to shade the boxes with HB pencil, as this will help them make changes, if necessary.

The candidates will not be permitted to take home the Question Book.
